

INVITATION TO THE 7th CONGRESS OF THE TGGA

Dear colleague,

The seventh congress of the Turkish-German Gynecological Association, organized biannually, will take place in Antalya on 16-20 May 2007. Our congresses are highly appreciated by the obstetrics and gynecology communities of Turkish and German speaking countries, and attendance to our last congress exceeded 1700 participants. The success of our congresses relies on the high quality scientific programs, the contribution of distinguished Turkish and foreign scientists as well as the strong support of the industry. Our previous congresses were pioneers in many aspects: parallel sessions took place simultaneously in 3 halls for the first time with a live 3D ultra-sonography course on pregnant women. We also let the new-comers make their oral presentations at the main sessions and had round table discussions with experts of their fields during lunch time. Therefore, we are fully aware of our responsibilities for the organization of the 2007 congress.

The positive outcome of our congresses is not limited by 5 day long scientific lectures. Our association is the first Turkish non-governmental organization providing scholarships to obs-

tetricians and gynecologists for scientific research abroad. Our scholarships are within the framework of the TÜBİTAK (The Scientific and Technological Research Council of Turkey) programs. (www.tubitak.gov.tr/bayg/programlar/tajd.php).

Our association publishes quarterly the Journal of the Turkish-German Gynecological Association (JTGGA), which is indexed in many different international databases; i.e. SIIC (Sociedad Iberoamericana de Informacion Cientifica) and EM-BASE (Excerpta Medica) and will soon apply to INDEX MEDICUS. This journal is published in 1500 copies and distributed to our members and colleagues. You can have online access to all the articles of the journal at www.artemisonline.net and obtain daily information about our association at www.tajd.org.

The Turkish-German Gynecological Association hopes to see you in Antalya at its 7th Congress on 16 May 2007. We believe that you will benefit from our rich scientific program and enjoy the social events as well.

Kind Regards
