

Acknowledgements for the Year 2010-1

On behalf of the office staff and the editorial board of the *Journal of the Turkish-German Gynecological Association (JTGGA)*, we would like to extend our thanks to all of our reviewers during the past year for your outstanding contributions.

We continue to see an increase in the number of submissions to JTGGA as well as the quality. JTGGA is clearly becoming the journal of choice for obstetrics and gynecology healthcare issues in our region. We can afford to be somewhat more selective, and our rejection rate of 34.7% approaches that of other major medical journals. The reviews submitted by you are among the best that we have seen among a number of major medical journals. The office regularly receives letters from authors thanking JTGGA for such thorough and helpful reviews, which enables them to produce much better manuscripts.

That fulfills one of our primary missions of teaching authors, especially young authors, how to write better manuscripts. We have several new and exciting programs under review for implementation during the coming year, and we certainly look forward to your ongoing support, suggestions and recommendations as to how to continue to improve the overall quality of JTGGA.

To become a JTGGA peer reviewer, please contact the Editor Cihat UNLU, Prof., M.D., cunlu@ada.net.tr and provide your full contact information and areas of interest.

Best regards.
