

## 2017 Subject Index

---

Abdominal wall elevation .....	174	Follicle .....	167
Abdominal wall lifting .....	174	Fragmented pattern .....	139
Anti-Müllerian hormone .....	148	Fresh embryo transfer .....	38
Antral follicle count.....	148	Frozen embryo transfer.....	38
Appendectomy.....	116	General surgery.....	200
Atypical hyperplasia.....	127	Geographic miss index.....	67
Autoimmune thyroid disease .....	85	Gluten-free diet .....	56
Bbstetric outcome.....	90	Group B Streptococcus .....	181
Big gynecologic tumors.....	195	Gynecology .....	200
Blastocyst transfer.....	133	High-grade squamous intraepithelial lesion.....	185
Boost.....	67	Homeobox genes.....	160
Borderline tumors.....	195	Hormone.....	210
Breast cancer.....	67	Human chorionic gonadotropin administration.....	133
Bupivacaine.....	26	Human papilloma virus.....	1
Celiac disease.....	56	Human papilloma virus genotyping.....	1
Cervical cancer .....	77	Hypertensive disorders.....	20
Cervical intraepithelial neoplasia grade I.....	1	Hypoactive .....	210
Cesarean delivery .....	26	Hyposexuality .....	210
Chemotherapy.....	33	Hysterectomy.....	62
Clinical pregnancy rates.....	38	Iatrogenic .....	15
Clips.....	67	Immature teratoma .....	43
Colpotomy .....	143	In in vitro fertilization.....	148
Concomitant.....	127	India.....	181
Controlled ovarian stimulation.....	148	Individualization.....	148
Culdolaparoscopy .....	143	Infection .....	181
Cytoreduction.....	33	Infertility .....	48
Da Vinci.....	96	Inflammatory markers.....	122
Depth .....	185	Inositol triphosphate.....	102
DHEA .....	160	Insulin resistance .....	85
Diacyl glycerol .....	102	Laparoscopic entry.....	174
Dysplasia .....	185	Laparoscopy .....	200
Education level.....	72	Leiomyoma.....	195
Elongated.....	139	Liposomes .....	102
Embryo development.....	102	Loop electrosurgical excision procedures.....	185
Endometrial cancer .....	110	Low-dose corticosteroids .....	56
Endometrial carcinoma .....	127	Low-grade squamous intraepithelial lesion .....	1
Endometrioid endometrial adenocarcinoma.....	139	Low-molecular- weight heparin.....	56
Endometriosis.....	200	Lymph node.....	77
Endometrium .....	160	Lymphadenectomy.....	96,127
Episiotomy .....	190	Lymphovascular space invasion.....	139
Epithelial ovarian cancer.....	33,116	Maternal mortality.....	20
Extraperitoneal.....	77	Menopause .....	210
Family planning method.....	72	Microcystic.....	139
Fertility-sparing surgery .....	43	Midurethral sling .....	9
Financial status.....	72	Myomectomy.....	62

## 2017 Subject Index

---

Myometrial invasion.....	139	Radiotherapy .....	67
Natural endoscopic surgery.....	143	Reduction.....	67
Newborn .....	181	Regression .....	1
Nodular goiter.....	85	Reproductive period .....	72
Normal tissue index.....	67	Risk factors .....	90,116
Obstructed labor .....	15	Robotics .....	96
Oocyte .....	167	Sacrocolpopexy .....	9
Oocyte activation .....	102	Serous papillary carcinoma.....	33
Ovarian cysts .....	195	Serum estradiol.....	38
Ovarian germ cell tumor.....	43	Serum progesterone .....	38
Ovary .....	167	Single port laparoscopy.....	143
Overactive bladder.....	9	Small for gestational age.....	90
Ovulation induction .....	48	Surgical staging .....	110
Perinatal morbidity.....	56	Transitional cell carcinoma.....	33
Peritoneal cytology.....	110	Transplantation.....	167
Pharmacodynamics.....	48	Transvaginal tape .....	9
Pharmacokinetic.....	48	Transversus abdominis plane block .....	26
Platelet-to-lymphocyte ratio.....	122	Treatment.....	43
Platinum/taxane .....	33	Tumor grade .....	139
Polycystic ovary syndrome.....	85	Turkey .....	20
Poor responder.....	160	Urinary fistula .....	15
Postoperative pain.....	143	Uterine fibroids.....	62
Pregnancy .....	56,181	Uterine sarcoma.....	62
Premenopausal .....	43	Vaginal deliveries .....	190
Preterm delivery.....	185	Vascular endothelial growth factor .....	167
Preterm premature rupture of membranes.....	122	Vesicovaginal.....	15
Prevalence .....	190	Vulval cancer .....	96
Progesterone elevation.....	133	Women.....	210
Prolapse repair .....	9	Wound block .....	26
